Work Grows Apace on New Community School Building

Work is now being pushed on the new Community building in the south part of the town with the hopes that it will be ready for the opening of school by Sept.

The building is being erected in the three acre park grounds and the site is one of the prettiest in the whole city. The building is being put up by volunteer labor and donations by the citizens and when completed will be a monument to the men and women of Joshua Tree and vicinity.

Frank L. Cook, president of the Community Association, is one of the prime figures in the movement, and is hitting the high spots trying to round up enough material to complete the project. He seems to be meeting with success and hopes to always keep enough on hand to insure the completion of the building. He is very enthusiastic as to the future of our little city and wants to see the school, children with adequate quarters when school starts. Mr. Cook is a rustler, and while he is temporarily walking with the support of a cane, caused from a slight injury to one of his legs, he can be seen constantly on the job.

Jeff Overby and Ralph Bryant are supervising the mechanical work on the job and are pushing things right along. They have several helpers and can use any others who want to do their bit. The work is all being donated by our citizens, and they don't take time off to grouch and hold up production. They deserve the thanks of the whole community and Messrs. Overby and Bryant are to be commended for their efforts to advance the work. All those who want to donate any time to the building of the Community House are urged to get in touch with either Mr. Overby or Bryant.

When completed the school room will be 22x40 and will take care of approximately 125 pupils.

Former Government Engineer to Build

F. L. Biggs, woh owns lot 55, Easterly Drive, has been busy the past week getting material ready for his five room house with double garage, which will be the first of other units which he will build. Mr. Biggs started the building of the garage this week which he will occupy until the house is completed, when he will move the family to Joshua Tree.

Mr. Biggs is a man who will let nothing stop him, once he gets going . He was, among other things, construction engineer of the Matamuska Valley project in Alaska, which was started by the government several years ago. It will be remembered that in this project the government selected 200 young and enterprising families who started with forty acres of land in Alaska with the idea of showing the people what enterprise will do given the right men and material. Mr. Biggs says the last time he heard of the project, most of the families stuck out the hardships and were on their way to proving the righteousness of the government in choosing them as the initial founders of the colony.

This is the kind of men we need in Joshua Tree to make our little city hum with activity. Mr. Biggs also had some very fine ideas for the social get - togetherness of Joshua Tree. Look him up folks and get together.

Salutations

The JOSHUA JOURNAL and force extend greetings and good wishes to the Wlison Home Appliance Store which announced its opening to the public Wednesday. May a bright and successful future be their reward.

Community Club Holds Interesting Meeting

The Woman's Club held a most interesting meeting at Desertaire Lodge last Friday afternoon.

Mrs. Wiser, the new president of the club, presided for the first time since her holding that office in a very efficient and gracious manner. The members of the club presented the outgoing president, Mrs. Jeff Overby, with a lovely pottery set as a token of their appreciation for the fine work she had done for the club.

The main feautre of entertainment was a demonstrative talk, by Miss Lillian Green, of the Dona Grey Health Food Products. Miss Green's talk was along the line of chemical analysis of various foods in their relation to the human body. Her talk was instructive and was well received by the members of the club.

One of the high lights of the meeting was the unanimous vote by the club to donate $200.00 toward the building of the Community Building. There were about thirty five club members attended. The next meeting will be held at Mrs. Hibbard's ranch at Hidden Valley.

Chamber Holds Regular Meeting

Mr. Chester R. Bunker and Mr. and Mrs. Charles A. Mitchell of the Joshua Tree Townsite Co., and Mr. Stuart Gear, secretary of the local Chamber of Commerce, attended the monthly dinner given by the San Bernardino County Chamber of Commerce at Colton, Friday night.

This was the regular monthly meeting of the various chambers, throughout the county (twenty-eight in number) which go to make up the organization. A good program had been arranged, consisting of pep talks and matters of interest to the entire county, and was followed by a sumptuous feed without O.P.A. restrictions. The dinner was served at the Derby House and was a very enjoyable affair. A goodly sized crowd participated.

A. W. Walker, secretary of the County Chamber presided and the entire program was successfully carriel out. Most of the locals were represented, and this monthly event is becoming more popular with each meeting.

Desert Playtimers Guild

Desert Playtimers Guild is an organization comprised of local folks who will aid thru these dances in furthering a little theatre groupe comprised of local talent, musical and dramatic.

Mr. Kay Keck is director, Alice Robbins assistant director, Jane Keck wordrobe. Mr. Keck is starting work on a play, "The Judge's Error," consisting of musical entertainment and drama. This play had a long run in Chicago a few years ago. Everyone with dramatic musical, ballet or acrobatic dancing ability is invited to join the groupe.

Wm. Rowe Meets With Serious Accident

Wm. Rowe who has been conducting the taxi service for Joshua Tree, has been confined to his home for the past few days, having met with a rather serious accident last Thursday night as he was returning from a trip to Redlands. The accident happened when Mr. Rowe stepped off into a deep pit at one of the Whitewater garages. He sustained severe bruises and shock. The pit was dark and the accident happened about 1 o'clock in the morning. He returned to his home here with the aid of friends who happened along. At this time he is improving slowly and his many friends hope for his speedy recovery.

Big Opening of Wilson's Home Furnishing Store

The opening of the Wilson Home Furnishing Store which was held last night at the Wilson building was attended by practically all of our townspeople and was a rare treat which was enjoyed by all. Mrs. Norma Peppin, of the Journal force, who was chairman of the committee on entertainment, furnished a program which will long be remembered.

An orchestra, composed of Mr. Milo Crane, clarinet, and his son, Milo, Jr., also clarinet, and Mrs. Peppin, violin, furnished several numbers which all enjoyed. Little Trent Crane gave two piano solos and was encored, the second time but smiled and shook his head. Trent plays the piano well and his numbers gave variations to the program.

Through the kindness of Dr. Norman Cooper, Mr. Wood, a professional violinist, who is visiting Dr. Wood rendered several selections, many of which were request numbers. Mr. Wood is a skilled musician, whose love for his violin is portrayed in the manner and rendition of each selection he plays. Only one who truly loves music could perform with such rare skill. During Mr. Wood's performance the appreciation of his talent was felt by all who listened. Space forbids our giving his program in its entirety, but there was not one person in the house who did not enjoy his playing. Larry Gray, who is always present with his good cheer, gave a couple of piano solos which everybody enjoyed, after which Woody, of Woody's Emporium took over for a good old fashioned sing. Joshua Tree is truly fortunate in having a man of Mr. Wood's talent for really putting things over. When Mr. Wood took over, everyone present entered into the spirit of the occasion with real old fashioned unison. Many sent flowers, among which were Mrs. J. J. Crane, who presented a coladium plant, with colorful leaves symbolic of the desert; Miss Jackson gave a desert plant; Mrs. Herdman sent oleanders; Mrs. Hibbard a bouquet and Mr. and Mrs. Holloway, Garden Florist at Morongo Valley, sent a gorgeous bouquet of flowers, all of which grew on the desert.

Mrs. Patton and several others presided at punch, which was ice cold and delicious.

Mr. and Mrs. Wilson are a fine young couple, who will be real assets to our community and we predict for this, The Wilson Home Furnishing Store a growing business and for its owners a happy future in Joshua Tree. We welcome you, The Wilson's Home Furnishings.

"By Their Fruits Ye Shall Know Them"

The populace of the town of Joshua Tree are unanimous in singing the praise of Louis Sinclair and wife, Sally, two of our leading citizens, for the excellent work they did in getting a post office for this town. It required considerable solicitation and wire pulling to get the project across and these two enterprising citizens were on the job day and night. They pushed the matter to a successful conclusion and today all our people are enjoying the privileges thus brought about by their valiant efforts.

Our hats are off to these progressive citizens and with their help and determined spirit, there is no such word as "fail" for Joshua Tree.

Children Help In School Drive

By Maude A. Fox

Norma Ojala and Annale Beard have the right idea. They are two little nine year old girls of Joshua Tree, who are very anxious to have a school here in this locality. So they did something about it.

These children held a "circus" in Norm's back yard charging one penny admittance. Soft drinks were sold for three cents a glass. Then of course the side show helped a little as a money maker!

The Beard and Olaga dogs and kittens were dressed in circus attire, holding the audience spell bound by their antics. The large broad shouldered pit Bull of Bears was a knock out with mouth covered with lip stick. He seemed to take it all in good nature. Maybe he and the Ojala dog knew it was all for a good cause! At any rate these energetic little girls with their penny and three cent charges cleared a whole dollar on the venture. Very proudly they handed in their donation to the Community Association. It might seem a small amount to the reader, but we grown ups might well take a lesson from these youngsters. When asked just why they did this, they replied, "We tried to do our part to get a school in Joshua Tree." That's good enough for anyone—isn't it folks?

Miss Jackson and Mrs. Hibbard were visitors in Redlands Tuesday.

Morongo Mutterings

Miss Gladys Terp, daughter of Mr. and Mrs. Anton Terp of Morongo Valley became the bride of Mr. Robert Alrich. They were joined by the holy bonds of matrimony July 17 at 10 a.m. at the Little Chapel in the KECA broadcasting station in the Chapman Park Hotel, Los Angeles.

Mr. Alrich came to Los Angeles in 1939, met his bride in 1942.

Mr. Alrich enlisted in the U. S. Navy November 28, 1942, serving three years in which he went on several bombing missions and was in seven of the biggest battles on Okinawa.

Gladys worked for California Auto Club for the last four years as underwriter in the insurance department.

Mr. Alrich and his wife were the lucky ones to win a contest by the Frozen Food product over KNA. They were selected by their true romance and good looks. Their prize was a trip to Laguna Beach in September for a week to stay at the finest hotel with all expenses paid. After the wedding they were taken to the air port and flown to Santa Barbara where they were guests at a dude ranch. They received $2000 worth of gifts. Lucky couple, don't you say.

Those attending the wedding in the Hess party were Mr. and Mrs. H. F. Silk, Ethel Rachon, Mr. Cy Belden, Mr. and Mrs. Charles Phillippi, Charles, Jr., and bride, and Mrs. H. M. Hess

Mr. and Mrs. Carson Weaver of Fullerton were visitors of Morongo, Sunday. While there they purchased a home.

Mr. George Von Ofen, D.C., of Alhambra, purchased a 5 acre tract in Morongo Valley where he expects to start a Sanitarium in the near future.

Mr. and Mrs. Tom Habgood entertained friends at their home Wednesday.

Mrs. Dorothy Russell and Rex Halimton gave a barbecue at the home of Frank Sabbathy Saturday night, the 20th. Fifty or sixty people attending, after the barbecue, all went to Yucca to dance.

Morongo Social club held their meeting at the home of Mrs. Daniel Murphy, Mrs. Wear, president of the club in charge.

Mrs. Maria Arnold resigned as secretary and treasurer, Mrs. Namonia Habgood taking her place. Next meeting first Thursday in August, will be at Mrs. Weir's home.

In our writeup of the installation as postmaster of Mrs. Aldridge last week, we stated that Dr. Sinclair was connected with the department in this section. The Doctor is not in any way connected with the postoffice department, but was primarily responsible for getting the project thru to a successful conclusion. He worked on the matter many months and is entitled to all credit for putting it over. Sorry for the mistake, Doctor.

PATRONIZE JOURNAL ADVERTISERS

Christy J. Nelson Looks Over his Possessions

Christy J. Nelson, a disciple of Blackstone and an ardent booster for the future of Joshua Tree, was a Sunday visitor here from East Los Angeles, where he has been engaged in the law business for the past twenty years.

Christy, as he is familiarly known to his many friends, has become one of the big property owners of Joshua Tree, having bought several lots upon which he contemplates erecting both residential and business buildings in the near future.

The writer has known Mr. Nelson for a number of years and has always found him a square-shooter and a credit to the legal fraternity. Wewill be glad when Christy gets located here permanently and becomes the legal end of the business.

Legion to Resume Work at Early Date

The Community association as a whole would like to make it known that the American Legion have for the time being stopped work on their hall so their members could donate time to work on the Community building, which is being erected for temporary housing of a school here in Joshua Tree. Jeff Overbay is giving his time to supervise the building job. When the Community building is finished and ready for the school, the Legion will resume work on the Legion hall. This Legion hall will be a great asset to this community as the post will arrange so organizations and clubs may meet there. A very adequate kitchen is planned and a movie show will be on schedule every week.

29 Palms News

Mrs. Carol P. Beckman, wife of Oscar Beckman, passed away at their home in 29 Palms.

Sorry a mistake was made—it's the Joshua Tree Cafe instead of Smoke Tree to enjoy those Saturday night dances, good music, good times.

Mr. and Mrs. Jack Bradley entertained the past week their two daughters, son-in-law, and three grand children.

Mr. Roy Harden of Alhambra joined the L. D. Webster organization Monday. Mr. Webster for the past year and a half has been the leading pipe line contractor in this vicinity. Mr. Harden will act in the capacity of Business Manager.

YUCCA VALLEY NEWS

Mr. and Mrs. Harrell of the Lone Star Ranch are expecting Mr. Harrell's sister and brother-in-law for a visit from Corsicana, Texas.

Mrs. W. C. Sanders has returned home from a three months visit with her daughters in Atascandero, California.

Glancing over the application blank, the prospective employer's eyes widened at the discrepancy between the young man's experience and his anticipated wage. "Don't you think you're asking mighty high pay for a man with no experience?" he exclaimed in surprise.

"Yes," was the blunt reply, "but you see it's much harder—and thus worth more—to handle a job you don't know anything about."—The Weekly Bulletin.

It was in the small hours of the morning. A befuddled gentleman was fumbling for the keyhole. Seeing his difficulty, a kindly policeman came to the rescue. "Can I help you find the keyhole, sir?" he asked.

"Won't be necessary," said the other cheerfully. "You just hold the house still and I can manage."

Farm Mortgage On Increase

Total farm mortgage debt in the nation has recently begun to increase. For several years, the mortgage load has been decreasing steadily. This upturn, in the opinion of N. L. McFarlane, farm advisor of Riverside county, may indicate that the danger stage in farm land inflation has been reached.

During the inflation following World War I, farmers went into debt to buy more land. They enlarged their farms as rapidly as they could borrow money. When the depression came, tens of thousands lost their land because they could not repay the debt with low-priced farm products. Those who survived were farmers whose debt was low at the time the price of farm crops went down.

The total farm mortgage debt in the United States has been going down rapidly in the last five years. Early in 1946, the farm mortgage debt was lower thman at any time since World War I. This puts the farmer in good financial condition to meet a lowering of the price of his products, said McFarlane.

At present farm land values in southern California are from 75 to 200 per cent higher than before the war. Buying land on borrowed money will push these already high prices up out of sight, he fears. A land boom ultimately leads to disaster and can almost wreck the economic life of a farming area. It happened in 1920. It can happen again.

McFarlane warns against the purchase of farm land at prices far in excess of their real agricultural value. He also warns that the buyer should not go into debt in making his purchase.

CLASSIFIED ADS BRING RESULTS. USE THEM OFTEN.

A new customer walked into a butcher shop and asked the butcher how many chickens he had. She was told that there were six chickens in the icebox. "I keep boarders who are always complaining," she explained, "so will you pick me out the three toughest chickens you have?"

The delighted butcher quickly put all six chickens on the counter and selected the three toughest. Firmly the customer placed her hand on the three tender chickens. "I'll take these," she said coolly.

Concerned about her husband who had entered the Navy, the young wife sent a note to the pastor of her church one Sunday morning. It was handed to him just as he was mounting the pulpit. The note read, "John Anderson having gone to sea, his wife desires the prayers of the congregation for his safety." But the minister, glancing it over hastily, read aloud:

"John Anderson, having gone to see his wife, desires the prayers of the congregation for his safety."

PRICE CONTROL BILL GETS PRESIDENT'S SIGNATURE

President Truman signed the revised O. P. A. bill yesterday. Although he did so reluctantly, Mr. Truman's signature on the bill extending O.P.A. until June 30, 1947, meant automatic restoration of price control.

Eleven ships were sunk in the Atomic Bomb test on Bikini Atoll today. The old Saratoga air craft carrier, was one of those sunk.

Tideland Bill Passes Senate

The tidelands bill renouncing Federal claims to ownership of tidelands or lands beneath navigable waters passed the Senate Monday night, 44 to 34, after a hastily organized Senate filibuster, instigated by Sen. Morse (R) Or., threatened to kill the measure.

By offering an anti-uoll tax bill —fought by Southern Democrats for a decade—as a rider to the tidelands resolution, Morse threw the Senate into confusion and brought from Sen. George (D.) Ga., the threat of a summer-long session of Congress. Morse's amendment was tabled, however, 54 to 23 on a motion by Majority Leader Barkley, and the bill quickly was approved.

J. B. Barrett, of Yucca Valley, was a visitor at this office Monday morning. While no relation to the editor of this paper, yet he looks and acts like a pretty decent fellow. J. B. has been on the payroll with the Prudential Insurance Co., but at present is soaking up some of the valley's health giving qualities, and is fast regaining his normal condition.

We presume it was that fellow Ed. Ainsworth whose name stands out in prominence at the masthead of the Desert Barnacle, a newspaper which claims to be published 200 feet below sea level who bought that Jackass he spoke of last week ,and which turned out this week to be Jassack. He has had an awful time discovering the sex of the animal and by the time his next report comes in, well who knows.

Moral — don't slam the door. An Apartment house argument in Leimert Park, Los Angeles, over the slamming of a door, ended in the death of one woman and the arrest of a housewife on a suspision of murder.

This section of God's country was visited by intermittent rains the past week, which helped to dispense the heat, freshen up the vegetation and even cause the stately Joshua Tree to take on new attractions. There is still more rain in the offing, according to some of the old timers.

History has recorded where man has entered the jungle, the forest and the desert and turned them into livable and profitable places. The progress being made toward this end in the California desert, indicates that the spirit of our ancestors still prevails.

Col. James Roosevelt, son of the late president, was elected state chairman of the democratic party of California at a meeting held in Sacramento last Saturday. The only trouble seemed to have been in classifying the gentleman as a leftist or a middle of the roader. He finally landed in the middle of the road.

The Indio city fathers have hit on a wey to have Mr. John Q. Public help them pay off their indebtedness. They are going to install parking meters. That's one way of payin' your bills.

Many reports keep coming in to the effect that a number of new test wells being put down thruout the valley are going to be good producers. Very few, if any, failures to get an abundance of water at a reasonable depth are reported. That is all it takes, aside from determination to make this valley productive. Nature has already furnished the resources, now it is up to our people to utilize them.

Many a soldier boy who has returned from the war and has cashed in a few hundreds or thousands, would show good judgment by investing a part of his money in a piece of this California desert land while he has it. By investing in lots in Joshua Tree, building a residence or business building, he is assured of a future home for his family as well as a business for himself. These opportunities present themselves only at rare intervals, and when old man opportunity knocks, as he is now doing here at Joshua Tree, it is time to shake hands with him. A little piece of land or a home makes a man feel much more independent and secure than to have a good time for a while until you have spent your money and then have to walk the streets looking for a job and not finding one. There is an opportunity right here at Joshua Tree for any young man who wants to get into business and make a home for himself and family. Think it over, comrade.

V. F. W. News

The Lt. Kenneth Bell Post No. 1053 V.F.W. of Pasadena, came enbody to 29 Palms July 21 - 46 (Sunday) for the ball game. They could not take along the veterans from the McCormack hospital as they planned, due to hospital regulations. Most of the veterans centered around the swimming pool, and had a good time, even enjoying the storm. The storm almost stopped the game, but Ed Gilpin got busy and the field was put in shape to play.

The Ball game was won by the V.F.W. all-star team of 29 Palms, 19 to 6, and was a good game. Our players really looked good, and played the same. The Pasadena players were good sports, and want a return game in the near future, at which time over hand pitching will be in order. This is really a hard and fast game, but Johnny Bagley thinks he can be in shape to pitch for us. The Sullivan twins played smart baseball, and the two Capts. of the team, Bill McCoughanah, and Johnny Sullivan, showed good judgment in the selection of the team. After the game the local V.F.W. Post put on a short entertainment and dance at Joshua Barn. There was a large crowd. Gale Griese out did himself in helping put the show over. Through his efforts and assistance of Nexa Hollaway at the piano — and Dorothy. Some fine songs were heard. Mrs. Virginia Williams danced a hula number which really put the visitors on their toes. She is a fine dancer, and a real entertainer at any show. The Post sincerely wants to thank the owner of Joshua Barn, and these entertainers for their help in making that evening a success. Pasadena went away knowing we appreciated them coming up here. A game with Banning will be announced very soon.

The V.F.W. of 29 Palms invites all eligible men to join up, the next regular meeting for the summer is July 25 and August 22 at the D.A.V. Hall, 8 p.m.

Let's all join up.

In Comradeship,
CHAS. F. SOYER
Commander 29 Palms Post 4229

THIS . . . and THAT

By Beth Barrett

"I shall pass thru this world but once
Any good, therefore, that I can do
Or any kindness that I can show
To any human being
Let me do it now. Let me
Not defer it or neglect it for
I shall not pass this way again."
—Author Unknown.

It is a keen idea not to look back.

Last week when I landed in front of our new home, which we built last year amid difficulties, I did not look back. The house is to be moved. It was built for comfort and permanency and we hope those who occupy it will find in it the same happiness we and our friends enjoyed in its comfortable quarters.

We sold the house before coming to Joshua Tree—and we will not look back. Joshua Tree folks are 100 per cent. It is going to be fun living and working here in this most picturesque spot on the desert. Have not had a minute which was not interesting. Let's all look forward, folks. This is one of God's chosen spots of the desert for beauty. Our sunsets are something out of this world. Our rugged beauty of mountain peaks portray every color at sunset, and "when the moon comes over the mountain," there's a beauty and stillness which is indescribable. Our deep water wells give out the purest and best water to be had and our folks are, like all those who come to the desert, individualists. They will scrap over trifles, but when something is to be put over which will benefit the town, they are a solid unit. If you are looking for a future home, folks, do not overlook Joshua Tree.

It is strange how we all tie into each other. When we learn that there is no difference in importance in individuals, we will have learned a valuable lesson. Last week Logan, whom you all know, connected our stove, Mr. Bunker gave us our pay check, a cousin moved us, staying awake all night, and on and on it goes with each individual. Yes we all tie into each other and each is important in his own particular niche. If we learn humbleness early in life, we will know the importance of not any of us bing more important than the others on whom we depend.

Knew a man once who was a co-ordinator. Had our print shop in Los Angeles in the block where John lived. Until John moved into that block everybody fought everybody. John jumped right into the fray an dgot everyone liking him and everyone else. Funniest thing. John was a proprietor of a liquor store and the W. C. T. U. women in the block fought him until Mrs. Linkite, who was both their friends, died, and John volunteered to let her ride in his car to the funeral. Never heard a word against John and his liquor store after that. On another occasion John was the only man in the block who could cash a check for her on a holiday.

Saw John about two months ago. Sold his liquor store and is in the insurance business. When John left our block there was not a person in the block who did not miss him and his co-ordinating influence.

If you think rents are high here, listen to this. Quote: "Mother we have found a house in Van Nuys. It's a wreck of a place, old house, no garage, no place to wash, and yes, rent in advance, $150.00 per month." Ruth.

Democratic Platform Embodies Salient Points

Following are a few of the main points in the platform adopted at the Democratic State Convention, held at Sacramento, last week:

"Ours is a liberal, Democratic party. It is the party of the common people of America. It is not the party of special privilege. It is the party of equal opportunity for all . . .

"As a Democratic party we stand for majority rule under law

"Housing at a cost within the reach of families of moderate and low incomes is now unavailable. No action has been taken by the Republican State administration to channel materials into the home construction field.

"An immediate and comprehensive plan to make materials available for home building, to be integrated with the Federal Housing program, is a crying need.

"We therefore urge that the resources, the power and the credit of the State of California be harnessed to the end that low-priced homes be made available.

"We support Proposition No. 1 on the November ballot, which provides a $100,000,000 bond issue for loans to veterans for the purchase of homes and farms. . . .

"To avert a crisis in public education in California due to rapidly increasing enrollment and an alarming scarcity of trained teachers, we indorse Proposition No. 3 on the November ballot proposing State support of public schools on a basis of $120 a year per pupil and a minimum salary of $2400 a year for all full - time teachers.

Cross Filing Hit

"The Democratic party again expresses its conviction that cross filing must be abolished. We urge the support of an initiative measure to be submitted to the Legislature on this subject . . .

"We oppose any legislation which will in any way abridge or weaken the right of labor to organize, bargain collectively, strike or to lawfully picket.

"We favor the extension of employment opportunities for women and legislation guaranteeing equal pay for equal work.

"It is a matter of common knowledge that the cost of medical and hospital service is beyond the means of the average citizen with the result that the health standards of our people are adversely affected.

Health Insurance

"Federal legislation to remedy this situation is now pending. Pending the enactment of such legislation and to supplement and integrate these laws for California we recommend the entctment of legislation in this State setting up a prepaid compulsory health insurance system which will guarantee the extension of adequate medical and hospital care to the citizens of our State. Due consideration should be given to the possible integration of already established private plans which meet State standards.

"We propose to prevent the waste and misuse of our human resources through a balanced program of social security. This means, among other things, the expansion of old age pensions as a matter of right rather than a matter of public relief. We recommend the elimination of the relative responsibility clauses of the present law. We favor the lowering of the maximum age requirements to 60 years, and an increase in allotment to not less than $60 per month.

Favor Broadening

"We favor the broadening of the Federal old age security laws to permit coverage by self-employed persons on an elective basis.

"We favor extension of unemployment insurance to cover all employees, with a longer benefit period, and higher rates of benefit . . ."

HAVE YOU HEARD

Mr. and Mrs. D. R. Allard and children, of Monrovia paid the Journal office a pleasant call Saturday. They are planning on locating in Joshua Tree in the near future as they have bought lots here. The Allards were loud in their praise of our thriving little city and they want to get in on the ground floor and help push and pull for Joshua Tree.

Mrs. John Van Derburght, of Los Angeles was the week-end guest at the Mira Monte courts. Mrs. Van Derburght was much pleased with Joshua Tree and is going to bring her husband next time with a view to looking over the many advantages of Joshua Tree. Let us hope they are among the many who will locate here.

Mr. and Mrs. G. B. Krumcke have been in Long Beach where their daughter gave birth to a baby girl, last Tuesday. Needless to say, grandparents are quite happy about the advent of the little lady. However, Mrs. Krumcke's sister, who has been ill for some time, is quite low.

Miss Jenevive Wikscrom, of Los Angeles, is spending her vacation with Mrs. H. C. Hollinger. Jenevive likes the desert so much that she spends every summer vacation here.

Mrs. Mary Burson and Mrs. Joline Zeigler, who work in the Joshua Tree Townsite Company office in Los Angeles were guests at the club house over the week end. Mrs. Burson was formerly secretary to the Woman's Club in Joshua Tree.

Mrs. Coulter took little Bobby to Palm Springs Monday, where he had four stitches taken out of his head, which he injured with a tin ca nlast week. Bobby had been having headaches from the injury.

Can't beat desert people for enterprise. Our ice man's truck broke down this week and his being unable to get parts, he could not deliver ice to Joshua Tree. However, the situation was taken care of when Miss Clark of Twentynine Palms heard of our difficulties and delivered us ice Tuesday.

Miss Selma Pearson of the Joshua Tree Townsite Company in Los Angeles was in Joshua Tree a few days this week enjoying the beauty and quietude of the desert.

Mrs. Kenneth Lee will leave Sunday the 28th for Seattle and Blaine, Washington. She will be away about two weeks. Mrs. Lee has been conducting Sunday school here and will be missed by the kiddies. However arrangements will be made by Mrs. Milo Crane for Sunday School to be held while Mrs. Lee is on her vacation.

Mrs. Ada Below, of Los Angeles, has been visiting her son, and daughter-in-law, Mr. and Mrs. D. E. Below, this past week. Mrs. Below, while admitting that it is a trifle hotter than the big city, has enjoyed our pure ozone and our almost perfect nights.

Ira M. Alpine and Jack Poole both of Los Angeles were here the first of the week looking over the water situation and installing new electrical equipment.

The pouring of the concrete for the new Community building has been completed and the force is now ready for the frame work. A quantity of lumber arrived Wednesday and more is on the way. Mr. Cook is pushing the material end of the project and is determined to keep the workmen busy. Every man connected with the structure is working with a view to having it completed on time.

BINGO PARTY BY AMERICAN LEGION

The American Legion will give a Bingo party at the Jack Crane building on the evening of August 2. Come to the party everybody and help the American Legion organization.

Out-of-Town Lot Owners Please Read

Joshua Tree people are building a Community House here which will be a credit to our town.

Most of the work is being donated. Our lumber, cement and other items, many of which go into the building of the Community House is being furnished at cost. The building will be used for school purposes this coming term of school, which opens Sept. 9. The Community House will benefit you out of town lot owners in a commercial way, exactly as it will benefit the people who live in Joshua Tree.

The good people of Joshua Tree are donating money with which to .build the Community House Mr. Mitchell, of the Joshua Tree Townsite Company has been appointed by the finance committee to collect money from out of town lot owners for this purpose. It would be nice, if each lot owner would donate $5.00 per lot. Mr. Mitchell(so far, is having good success in collections. The names of persons donating will appear from time to time.

FREE EUROPEAN TRAVEL IF AN EX - WAC

Pull out the travel folders and shake out the old duffel bag — it's European travel for free, if you're an ex-Wac.

If you're a former member of the Women's Army Corps and can hold one of nine military classifications, you may reenlist for duty in the European theatre, according to Colonel Joseph D. Raney, commanding officer of Army Recruiting in this district.

The women soldiers needed are: 100 clerk typists, 50 stenographers, 25 clerks, general, 25 statistical clerks, 25 teletype-writer operators, 20 crytographic technicians, and 11 supply clerks.

All applications must be received on or before August 7, 1946, Colonel Raney warned.

For further information contact your local Recruiting Station at 490 Court Street, Room 10, San Bernardino.

JUPITER PLUVIUS PAYS LONG EXPECTED VISIT

To prove that it rains on the Just as well as the Unjust, old Jupe paid his respects to this section of the valley, and included Joshua Tree, Wednesday, and gave down an abundance of water which the parched and hungry earth devoured with gusto.

The rain lasted pretty well thruout the day and into the night, and vegetation will be much benefitted, while the heat wave has been driven out for the present at least. Rains have been pretty general over this entire section of the state the past week and came at a time when they were needed. The downpour was unaccompanied by any wind, but the lightning and thunder were very noticable.

Character Room To "Go Western"

Outstanding feature of Sam Mark's "Character Room" this coming week-end will be the return appearance of Bob Groom and his "Western Playboys" — three instrumentalists and a vocalist who made a big hit on their initial visit to the local nite club last week. The "Playboys" specialize in western style entertainment and square dances and reels will be danced as well as more modern steps. Bob and his boys are known for their western records and their appearances at the Navajo Club at Big Bear Lake, the Desert Outpost in Beaumont and various radio programs. The boys will appear tonite, Saturday and Sunday. Free dancing starts at 8 p.m. and according to Mr. Marks the usual delicious drinks will be served (including plenty of beer) until midnite.

Two midwestern grocers were discussing the benefits of advertising. The one with the more thriving business credited publicity for much of his store's success.

"Then tell me," said the other, "just how you think advertising stimulates business."

"It's this way," replied the first. 'A codfish, for example, lays nearly 10,000 eggs a day, but it does so in silence. A chicken lays only one, and cackles like the dickens. Nobody eats codfish eggs, but nearly everybody eats chicken eggs."

An accident case was being tried in a Kansas court. The victim claimed heavy damages, but the defendant consistently declared that he was driving no more than five miles an hour. The prosecutor listened closely to this claim.

When it came time for his summation to the jury, he had his clinching point. "Gentlemen," he said, "the defendant states he was barely inhcing along. Therefore just imagine my client's agony as the car plowed over his body at five miles an hour."

Walt Giles	10.00
W. D. Robinson	20.00
C. A. Hanna	10.00
Christy J. Nelson	30.00
John McGee	10.00
John L. Duncan	25.00

Total amount collected for Community Building $1363.00

And now it is said that Mexico is going to take over Catalina Island with a few others out in the big pond. Well, we don't care, we've never been able to get there anyhow.

Twelve thousand five hundred gallons of milk were destroyed in southern Los Angeles county, Monday, when a mix up of the A. F. of L. union teamsters and the Independent dairymen tagled in an argument. This episode is nothing to be proud of by either side.

OFFICE HOURS ANNOUNCED BY DEPUTY BUILDING OFFICIAL

Office hours were announced by Walter Berg, recently appointed local deputy building official of San Bernardino County, as mornings until noon in his home, Mondays through Fridays, at which time requests for the ecessary permits for construction work can be made.

Berg recently pointed out that "effective here June 1st, permits are required for all new buildings; that an inspection must be made; that houses over six hundred square feet must have a set of three blueprints and rentals and courts four sets."

He further stated that the building code used by the County is the same one in general use throughout the State, with few exceptions. Information will be supplied inquirers at his home or by telephone, he advises.

David Dunsworth Visits Joshua Tree

David W. Dunsworth, gentleman and scholar, who hales from Palm Springs was a Joshua Tree visitor Saturday and piloted by John McGee dropped into our sanctum sanctorum for a short visit. Dave became so enthused while being chaperoned around the town by John that he dug down and came up with the mazuma to purchase a fine lot in the east part of the town. When asked if he intended to build on it, he replied that the lot was too big to be buried in so what could we figure he intended to do with it.

Dave is a writer of events, according to his credentials, and his brain leaks frequently appear in the Palm Springs papers. He is a genial fellow and we hope to see more of him—although he didn't have much on when we saw him. However, come on in Dave, the water's fine.

Mr. and Mrs. Payne of Long Beach were in Joshua Tree, guests of the Mira Monte Courts Sunday. Mr. Payne is a brother of Mrs. Lillian Green.

Helps Along In A Worthy Cause

C. C. Brown, of Yucca Valley, who owns the Mortarless concrete block plant at that place sold the Community Association sand, cement and gravel at wholesale price for the Community Building. Mr. Brown also gave a cash donation of $23.80.

This was a fine gesture on Mr. Brown's part and the members of the Community Association feel indebted to him for the spirit he has shown in assisting us in this project of which we are all so justly proud.
